We had the privilege of lotting a large & comprehensive postmark collection of approx. 35 volumes with many hundreds of postmarks in each. We have extracted those scarce & rarely seen postmarks & these are offered as separate lots in both this auction and our June auction (No. 29). Volumes "A" to "Ka" are offered in this sale with the rest to follow. Volume "F" is representative of the bulk volume lots to be offered in each of these sales. The more detailed description of this lot is characteristic of all other bulk lots. It contains postmarks from at least 29 different post offices commencing with the letter "F" with 75 covers, 10 postcards & Australia Post stationery & incl bar numerals & circular date stamps as well as other postal markings & hand stamps. Apart from the covers & postcards, there are between 700 & 800 items with postmarks from the late 1800's to about 2010 encompassing WA swans, kangaroos, KGV & commems. Many postmarks are complete & on piece especially from the 1920's onwards. Considerable duplication in some areas is useful for swaps or on selling. Postmarks in all volumes are set out in PMI order to around 1990 & in PMC order from then on with photocopies of these documents incorporated in each. Any of these volumes should inspire the specialist & excite WA postmark dealers especially with the conservative reserves. Inspection is highly recommended.

Revenue Stamps

The following 6 lots are WA Revenue Stamp Duty Frame Die proofs. All in black on wove paper & endorsed with a number top left & some remnants of a possibly removed number top right. Each measures approx. 14-18mm x 23-24mm. There is also "S" m/s in red ink located in the vignette area. Similar items in the Prestige Sept 2011 Auction were larger & did not have m/s "8" & have only one number which is centrally located at the top. The 1/10/- & £10 frame proofs were not offered by Prestige. Each of the following examples are toned by ageing to various degrees with minor faults. They were possibly attached (stapled?) to a page in the printers proof book by the top right corner & have suffered some degree of damage when removed. Please see the website for images at www.cestampauctions.com All of the following were photographed & featured on John Dzelme's 1987 book, "The Fiscal Stamps of Western Australia" on page 43.
